

**FICHE 1 - DRAFT MODEL FOR THE OPERATIONAL PROGRAMME
UNDER THE INVESTMENT FOR GROWTH AND JOBS GOAL**

**Based on the draft template and guidance on the content of the operational
programme (Version 2 –25 February 2013)**

Version 1 – 27.02.2013

Regulation	Article
Common Provisions Regulation (CPR)	Article 87 (9) - Content, adoption and amendment of operational programmes under the Investment for growth and jobs goal

This document is based on the most recent Presidency compromise text and is provisional, without prejudice to the on-going negotiations (in line with the principle that "nothing is agreed until everything is agreed"). The document is a draft which will be adjusted following the expert meeting.

1. EMPOWERMENT

Article 87 (9) of the CPR sets out that:

"The operational programme shall be prepared according to the model, which shall be adopted by the Commission, by means of an implementing act, with advisory procedure in accordance with Article 143 (2)."

This document is based on the most recent Presidency compromise text (from 19 December 2012), which has the agreement of the European Parliament as regards Articles 14, 15 and 87 CPR, and is a provisional text, without prejudice to the on-going negotiations (in line with the principle that "nothing is agreed until everything is agreed").

Adjustment of the model will be necessary for the operational programmes under the European Territorial Cooperation goal and for operational programmes devoted solely to technical assistance.

2. MAIN OBJECTIVES AND SCOPE OF THE IMPLEMENTING ACT

The model for the preparation of the operational programme shall set out uniform conditions for the presentation of information under each section of the operational programme. These conditions should ensure that information included in programmes is consistent, comparable and can, where necessary, be aggregated.

3. MAIN ELEMENTS OF THE IMPLEMENTING ACT

The implementing acts will mirror the structure of the operational programme set out in Article 87 of the CPR. It shall define the technical characteristics of each field, including the format of the data, the input method and the character limits. It shall also identify the information which is subject to Commission decision and information which is not, based on Article 87 (10) of the CPR and elements which may be presented in the Partnership Agreement only, based on Article 87 (8) of the CPR.

4.2.A Financial plan of the operational programme specifying, for the whole programming period, for the operational programme and for each priority axis, the amount of the total financial appropriation of the support from each of the Funds and the national co-financing. (EUR) (Table 18) (Article 87 (d) (ii) CPR)

1. The financial table should set out the financial plan of the operational programme by priority axis.
2. Where the priority axis covers more than one category of region, the data for the Union funding and the national counterpart should be broken down by category of region with a separate co-financing rate within the priority axis for each category of region.
3. The EIB contribution should be presented at the level of the priority axis.

4.2.B. Breakdown of the financial plan of the operational programme by priority axis, Fund, category of region and thematic objective for the ERDF, ESF and the Cohesion Fund (Table 18b) (Article 87 (d) (ii) CPR)

This breakdown is required in order to fulfil the requirement set out under Article 87 (2) (d) (ii) CPR to specify for priority axes, which combine investment priorities from different thematic objectives, the amount of total financial appropriation from the ERDF, ESF and CF and the national co-financing for each of the corresponding thematic objectives. Where each priority axes corresponds to a single thematic objective, this table will not require a breakdown below the level of a priority axis.

This section is relevant for most operational programmes under cohesion policy. However, in some cases, particularly in case of narrowly focused sectoral programmes which do not have a significant social dimension, this section might not be relevant. Where this is the case, these sections do not need to be filled in.
