

# Statistical Annex

European Economic Forecast – Spring 2021

# Contents

## Output : GDP and its components

1	Gross domestic product
2	Profiles (q-o-q) of quarterly GDP
3	Profiles (y-o-y) of quarterly GDP
4	GDP per capita
5	Final domestic demand
6	Final demand
7	Private consumption expenditure
8	Government consumption expenditure
9	Total investment
10	Investment in construction
11	Investment in equipment
12	Public investment
13	Potential GDP
14	Output gap relative to potential GDP

## Prices

15	Deflator of GDP
16	Deflator of private consumption
17	Harmonised consumer prices index
18	Harmonised consumer prices quarterly profiles
19	Deflator of exports of goods
20	Deflator of imports of goods
21	Terms of trade of goods

## Wages, population and labour market

22	Total population
23	Total employment in persons
24	Total employment in full-time equivalents (ES, FR, IT, NL, EA and EU)
25	Unemployment rate
26	Compensation of employees per head
27	Real compensation of employees per head
28	Labour productivity
29	Unit labour costs, whole economy

30	Real unit labour costs
	Exchange rates
31	Nominal bilateral exchange rates
32	Nominal effective exchange rates
	General Government
33	Total expenditure
34	Total revenue
35	Net lending (+) or net borrowing (-)
36	Interest expenditure
37	Primary balance
38	Cyclically-adjusted net lending (+) or net borrowing (-)
39	Cyclically-adjusted primary balance
40	Structural budget balance
41	Gross debt
	Saving
42	Gross national saving
43	Gross saving of the private sector
44	Saving rate of households
45	Gross saving of general government
	Trade and international payments
46	Exports of goods and services
47	Imports of goods and services
48	Merchandise trade balance (% of GDP)
49	Current-account balance (% of GDP)
50	Net lending (+) or net borrowing (-)
51	Current-account balance (bn EUR)
52	Export markets (goods and services)
53	Export performance (goods and services)
	World economy
54	World GDP
55	World exports of goods and services
56	Export shares (goods) in EU trade
57	World imports of goods and services
58	Import shares (goods) in EU trade

- 59 World merchandise trade balances (bn USD)
- 60 World current-account balances (bn USD)
- 61 Crude oil prices

Table 1: Gross domestic product, volume (percentage change on preceding year, 2002-2022)

**Note on concepts and sources**

1. The directorate general for economic and financial affairs (DG ECFIN) produces, under its own responsibility, short-term fully-fledged economic forecasts in Spring and Autumn. These forecasts cover the principal macroeconomic aggregates for the Member States, the candidate countries, the European Union as a whole, the euro area and the international environment.
2. Data for 2021 and 2022 are forecasts. The source for all tables is the European Commission, unless otherwise stated. Historical data for the Member States are based on the European System of Accounts (ESA 2010). Figures for Romania are based on Commission services' calculations based on the latest published available data. US national accounts are based on SNA 2008, whilst the Japanese accounts use SNA 1993. Due to differences in revision schedules of annual and quarterly national accounts, annual and quarterly figures may not be fully consistent for some Member States.
3. Tables 5 and 6 on domestic demand and final demand respectively, present data including inventories.
4. In Tables 17 and 18, the data are based on the national index for USA and Japan.
5. The potential output gap is calculated with reference to potential output as estimated via a production function, where the increase in the capital stock and the difference between actual unemployment and the NAWRU play a key role.
6. Employment data used in tables 24 and 26 - 30 are based on full-time-equivalents (FTEs), where available. Currently, Spain, France, Italy, and the Netherlands report FTE data. In the absence of FTE data, employment is based on numbers of persons. In the calculation of EU and euro-area aggregates, priority is given to FTE data, as this is regarded as more representative of diverse patterns of working time.
7. Source: National Accounts (ESA 2010), except for US current-account in tables 50, 52, and 61 (Balance of Payments). Discrepancies with balance of payments statistics may arise due to methodological differences and revision schedules.
8. EU and euro-area data are aggregated using exchange rates. World GDP is aggregated using Purchasing Power Standards (PPS). In the tables on world trade and international payments, the aggregation is carried out on the basis of current exchange rates. Tables 48 - 51, 59 and 60 show also EU and euro-area "adjusted" balances. Theoretically, balances of EU and euro area vis-à-vis third countries should be identical to the sum of the balances of the individual countries in the EU or the euro area. However, intra-EU or intra-euro-area balances are non-zero because of reporting errors.

The creation of the internal market in 1993 reduced border controls and formalities, and accordingly the scope and precision of intra-EU trade coverage. Typically, intra-EU imports are underestimated compared to intra-EU exports, leading to an overestimation of the surplus. For the past the "adjusted" balances are Eurostat estimates for EU and ECB estimates for the euro area. For the future, they are ECFIN's forecasts based on the extrapolation of the discrepancies observed in 2020.

9. EU and euro area aggregates for general government debt are published on a non-consolidated basis (i.e. not corrected for intergovernmental loans, including those made through the European Financial Stability Facility).
10. Geographical zones are defined as follows :

**Euro area :**

EA19 (BE, DE, EE, IE, EL, ES, FR, IT, CY, LV, LT, LU, MT, NL, AT, PT, SI, SK and FI).

**European Union :**

EU (EA19, BG, CZ, DK, HR, HU, PL, RO, and SE).

**Candidate countries :**

Albania, Montenegro, North Macedonia, Serbia and Turkey.

**Potential candidates :**

Bosnia-Herzegovina and Kosovo.

**Advanced economies :**

EU, United Kingdom, candidate countries, Iceland, Norway, Switzerland, Australia, Canada, Hong Kong, Japan, Korea, New Zealand, Singapore, Taiwan and the United States.

**Emerging and Developing asia :**

All countries in that region except the ones included in the Advanced economies and the Asian MENA countries.

**Latin America :**

All countries in that region.

**MENA (Middle East and Northern Africa) :**

Algeria, Tunisia, Morocco, Egypt, Israel, Jordan, Lebanon, Iraq, Iran, Yemen, Saudi Arabia, Bahrain, Oman, United Arab Emirates, Kuwait, and Qatar.

**Sub-Saharan Africa :**

All countries in that region except the African MENA countries.
